

POLY(ARYLENE ETHER) COMPOSITIONS

ABSTRACT OF DISCLOSURE

[0058] A poly(arylene ether) composition comprises a first poly(arylene ether) resin having an intrinsic viscosity greater than or equal to about 0.3 dl/g, as measured in chloroform at 25°C and a second viscosity poly(arylene ether) resin having an intrinsic viscosity less than or equal to about 0.17 dl/g, as measured in chloroform at 25°C wherein the composition is essentially free of plasticizers.
